Buying the right used car is like making a wise Investment

Making the right choice while buying a used car is very important. Maruti Suzuki, India's favorite car company, understands your concerns regarding quality, documentation and value for money. That is why we ensure that the used car you buy from us has never had an accident and is free from defects or legal hassles. What you get is a car that is optimized for trouble-free performance and therefore needs minimum maintenance. Of course, all this is possible only because of Maruti Suzuki's direct involvement, which includes thorough checks, a complete reconditioning at state-of-the-art Maruti Suzuki workshops and certification by a Maruti Suzuki Engineer present at the TrueValue outlets. That's not all, as a mark of assurance we give you a warranty up to 1 year and 3 free services. Buy a Maruti Suzuki certified used car and make a wise investment.
